

Colour: grey

i.POWER is an MS-polymer adhesive with very strong initial adhesive tack which is ideal for both indoor and outdoor use.

Because of its broad adhesion spectrum the **i.POWER** is the adhesive wonder on construction sites.

Suitable for use with:

- ✓ Concrete, cast stone and plaster
- ✓ Natural and artificial stone
- ✓ Steel, stainless steel, aluminium, brass and copper
- ✓ Painted glass
- ✓ wood and wood materials/composites
- ✓ and many others

NEW: The innovative gas cartridge **i.POWER+** enables a labour-saving, precise and rapid use – without a cartridge pistol!

APPLICATION EXAMPLES

- Installation of cable ducts, lamps, bells, post boxes, paintings, house numbers etc.
- Fixation of pipe clamps
- Floor work (Adhesion of skirting boards, stair protection profiles and separating profiles)
- Surface mounting of electrics
- Renovation and maintenance of buildings
- Carpentry

PRODUCT QUALITIES

- + Extremely high initial adhesive tack
- + Water-, weather- and aging-resistant
- + High temperature resistance
- + No mould formation typical of drilled holes
- + Removal without any residues or damage
- + EU REACH conformant
- + No hazard labeling needed
- + Vibration-resistant, noise insulating and stress equalising

General advise: The bonding surface must be clean, free of oil and dust and able to bear weight. In the case of adhesions between air-tight surfaces, moistening of the adhesive mass is necessary. For pre-cleaning and humidification we recommend our **i.CLEANER**. Please find more details in its technical data sheet and safety data sheet.
